

A black and silver Marzocchi Diddy DJ dirt jump fork is shown against a white background. The fork features a black reinforced steel steerer with yellow caps, silver 32mm steel stanchions, and a black forged arch. The lower fork leg is black with white graphics, including the Marzocchi logo and 'Diddy DJ' text. The lower leg is equipped with dual coil-springs and SSV damping. The lower fork leg has a 20mm axle and independent lowers. The lower fork leg is compatible with both discs and V-brakes. Steel grind plates and stunt nuts are optional.

NEW MARZOCCHI FORK

## Diddy DJ

Marzocchi has launched a new dirt jump fork. The D-Street 24 is an 80mm-travel, hardcore jump/street suspension fork designed specifically for use with 24in wheels.

Built for strength, the new fork has a reinforced steel steerer and 32mm steel stanchions. Internally the D-Street 24 is dual coil-sprung with air assist, making it easy to match the spring rate to every riding eventuality. Open-bath SSV damping gives that classic Marzocchi plush feel and reliability is guaranteed.

For the D-Street 24, Marzocchi uses a replaceable forged arch, with a new, dedicated 20mm axle and independent lowers which are compatible with both discs and V-brakes. Steel grind plates and stunt nuts are optional.

Projected price for the D-Street 24 is £314.95. Contact Windwave on 02392 521912 for delivery dates.
